

Newsletter October 2021

Since the last news in March, Swiss-Group has continued to sponsor orphans. It has also been very active by leading numerous actions in Turkey and Syria. But above all, Swiss-Group was finally able to return on the field in Gaziantep to see the orphans. This trip was filled with emotion and allowed us to better assess the orphans' needs and to set up various medical and psychological assistance.

Here is a summary of our actions in the recent months:

April :

- Sponsor a school in Gaziantep (math, Turkish lessons, etc.)
- Emergency distribution of clothing and supplies.
- Food distribution throughout the month of Ramadan in the Idlib region (Syria) and Gaziantep (Turkey).
- Gifts for orphans

May :

- Swiss-Group team's trip to Gaziantep, including a doctor, to meet the orphans.
- Sponsor several families and orphans with medical problems.
- Funding a full-time nurse to visit the orphans
- Distribution of clothing and equipment in emergency
- Funding psychological assistance for orphans with post-traumatic stress disorder.

June :

- Funding hearing aids for the hearing impaired.
- Financial assistance for graduation exams.

- Funding medical treatments, surgical operations, dental care, etc.
- Support in specialized schools for blind / visually impaired children.

July :

- Food and water distribution in the Idlib region (Syria).

September:

- Funding of medical treatments, surgical operations, dental care, etc.

Syria is currently facing an outbreak of Covid 19 cases. The situation is very worrying in the camps for the displaced. With winter approaching and the epidemic, we are organizing a charcoal distribution campaign. If you wish to contribute, you must put the mention "WINTER" on the payments.

There are also still many children to sponsor.

If you want to sponsor or have more information:
